Combi 3 in 1 Tilt in Space

Toileting, Bathing and Showering Unit

The Combi 3 in 1 unit ensures patients a stress-free experience. As well as being easy to operate by the touch of a button, it guarantees the safety of the client and carer. The Combi Unit consists of a Stainless Steel Base Transporter (battery operated Tilt in Space) together with a Stainless Steel cradle, which comes in 3 standard sizes. All cradles fit on the same Base Transporter and are easy to attach and detach making them interchangeable. In the case of bathing the client can be hoisted off the Base Transporter into a standard bath whilst still in the cradle. For toileting the cradle can be placed into the upright position. The Combi 3 in 1 is compatible with the Clos-o-mat and the Geberit toilets, plus 90% of all domestic toilets. The Combi 3 in 1 unit conforms to CE standards.

Adjustable: Reclines to allow maximum comfort and functionality by the touch of a button to 30°.

Construction: The frame is constructed from Stainless Steel and is powder coated. The frame is manufactured in the UK and designed by our in house design team.

Manoeuvrable: Easily transported from room to room to be positioned where required.

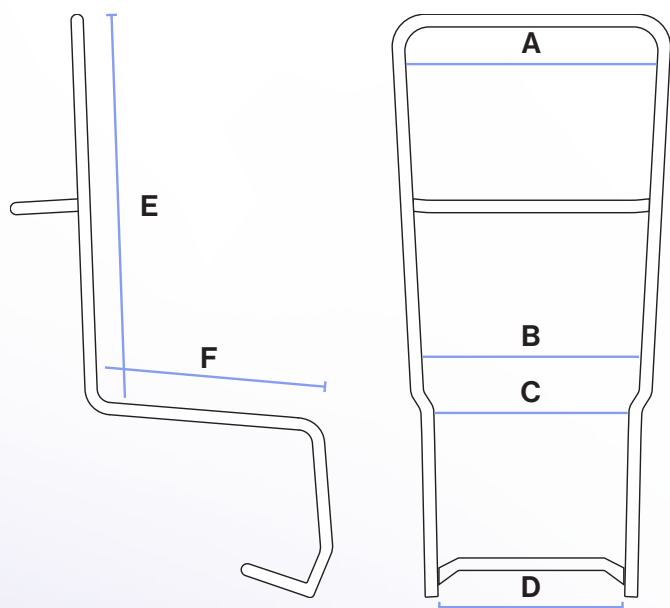

Waterproof: All Stainless Steel construction it can be used in a shower, wet room, bathroom or pools.

Optional Accessories: Side arms, pads, rolls, bib harness, head supports, aperture(s), commode facilities, footboard and footplates.

Mesh: The quick drying mesh is coated in Polygiene to prevent cross contamination. The mesh is easily removable using zips and Velcro so that it can be placed into a washing machine when required.

Bespoke Options: Bespoke options are available if requested. The Combi unit is a product that truly has both the client and carers needs firmly in mind. However to fully appreciate the flexibility and potential of this product we would welcome the opportunity to demonstrate it to you in person.

Maximum user weight: 175kg or 27.5 Stone.

	Small	Medium	Large
A: Top Width	440mm	463mm	587mm
B: Hip Width	348mm	392mm	472mm
C: Knee Width	376mm	378mm	419mm
D: Foot Width	329mm	335mm	376mm
E: Back Width	663mm	693mm	868mm
F: Thigh Width	277mm	369mm	483mm

The various dimensions shown in the diagram are the number of flexible measurements which can be modified to suit the user needs.
